FKA / EXECUTIVE BIOGRAPHY

Felix Kyei Asare

Global Architect of Digital Trust

Felix Kyei Asare is an enterprise cybersecurity executive with leadership experience across financial services, insurance and industrial organizations. His expertise encompasses cyber risk governance, security transformation, operational resilience, AI governance and executive decision-making.

He serves as Director of Information Security at Enpro and previously held cybersecurity leadership roles at MassMutual, Putnam Investments and Allianz Technology. His approach connects cybersecurity investment with business strategy, operational continuity and accountable risk ownership.

Felix has presented at AWS re:Invent and re:Inforce and participated in the U.S. cybersecurity delegation to Israel. He is the author of *Zero to Hero: Your Guide to a Career in Cybersecurity* and founder of SuperHuman Mindset.
